

# Business Analytics Nanodegree, Udacity

## Project 3

SQL for analysis data

# Which is the Billing Country this biggest?

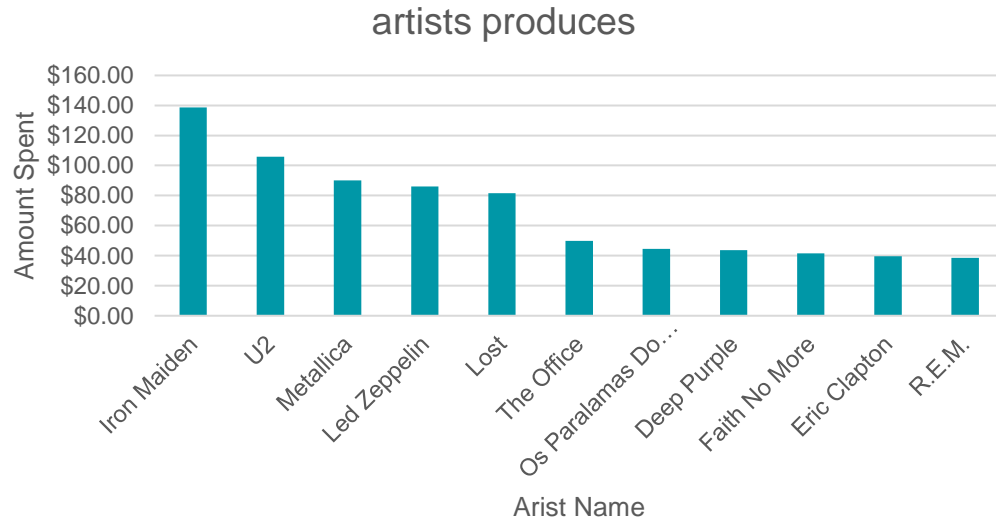

The following figure shows the cities with the highest bills. It was noted that the USA is the most and the leader in the list of invoices for the artists, followed by Canada in the invoices. These two types are more than nearly 100 invoices sold, while the rest of the countries are all less than this number.

# How the money spent by customers is distributed to Invoice?

This graph shows that some customers spend roughly \$35 to \$38. Others spend up to \$49, and as shown, the purchase rates are slightly different.

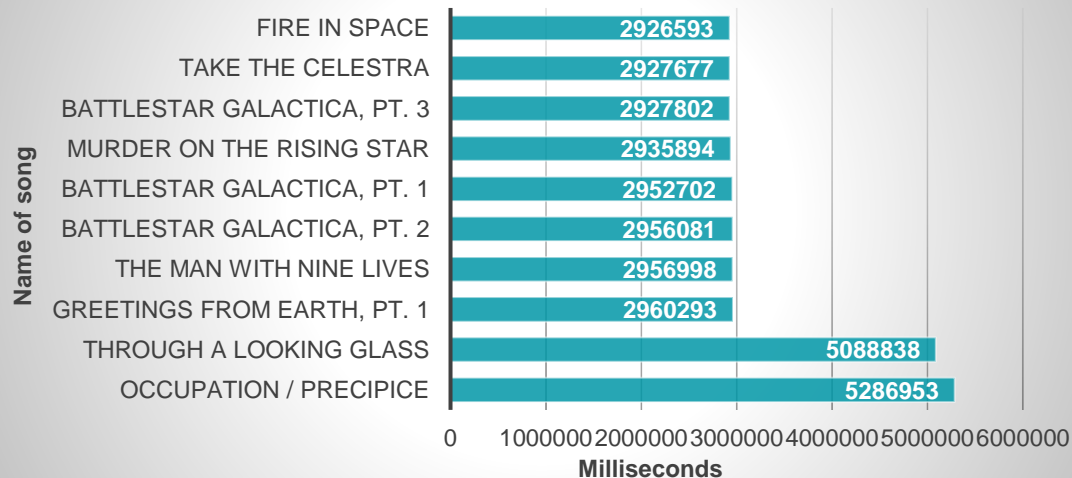

# Who is the artist who makes the most money?

As the figure shows, you see, there is a wide variation in percentages as shown, but the one who earns the most money around \$138 is the Iron Maiden artist, while another artist R.E.M earns about \$38.61.

# Who's have the length with the longest songs?

## longest songs listed

As the following figure shows, I returned the name and milliseconds for some of the longer songs.

As it appears, the longest song is Occupation / Precipice, its length is 5286953 seconds, and the shortest song is Fire In Space, its length is 2926593 seconds.
